

JORDON ZHAODONG LYU

+86 186 7077 8202 · [email](#) · [linkedin](#) · [github](#) · [google scholar](#)

Education

Monash University , Ph.D. Electrical Engineering	2025 — 2029
Southeast University , Ph.D. Transportation Engineering	2025 — 2029
Shanghaitech University , M.S. Electrical Engineering	2021 — 2024
Hunan University , B.S. Communication Engineering	2017 — 2021

Experiences

Southeast University , Research Assistant	nanjing, China 2025.02 — 2025.09
End-to-end self-driving algorithm acceleration.	
Shanghaitech University , Algorithm Intern	shanghai, China 2024.07 — 2025.01
Solution of flaw detection in CPU-GPU platform; tapeout of digital eFPGA in TSMC28hpc+	
United-Imaging Microelectronics , Algorithm Intern	shanghai, China 2022.07 — 2023.11
An entire process of the fall detection system; modeling of ASIC 24-bit and FFT group integer operations.	

Academic Services

GitHub: fpgachina 2025 competition tutorial	2025
ISCAS 2026 Reviewer	2025
FPGA HLS textbook editor	2025

Certifications and Honors

Cadence digital and sign-off full flow tools training	2024.07
IEEE ISCAS Student Travel Grant	2024.05
Autonomous Mobile Robots (ETHx)	[edX Online]
The academic scholarship	2018, 2020 - 2023

Publications

1. C Ji, X Li, [Z Lv](#), H Sun, Z Pu. Software-Hardware Co-optimization for Modular E2EAV Paradigm: A Unified Framework for Simulation System, Evaluation Metrics, and Optimization Approaches. *2026 Transportation Research Board annual meeting (TRB)*.
2. Y Shu*, B Ning*, Y Li*, [Z Lyu](#), J Wang, L Lan, Y Zhou, M Zhang, H Zhang & Y Ha (2024). Overview of Cryogenic CMOS Based Computing Systems, *Integrated Circuits and Systems (ICAS)*.
3. [Z Lv*](#), H Sun*, Y Shu, Y Ha. EarFDA: A Lightweight and Energy-Efficient Fall Detection Accelerator for Ear-Worn Devices, *2024 IEEE International Symposium on Circuits & Systems (ISCAS)*.
4. Y Shu, H Zhang, Q Deng, H Sun, [Z Lv](#), Y Li, & Y Ha (2024). eCIMC: A 603.1-TOPS/W eDRAM-Based Cryogenic In-Memory Computing Accelerator Supporting Boolean/Convolutional Operations. *IEEE Journal of Solid-State Circuits (JSSC)*.

Skills

Coding

Matlab, C/C++, HLS, Python, Verilog/VHDL, $\LaTeX$, Digital IC backend

Languages

Mandarin, English
